SOUTH AFRICA PREMIER ASSASSINATED

Heart Pump Patient Goes Home

HOUSTON, Sept. 6 (UPI)—Mrs. Esperanza del Valle Vasquez, history's first recovered heart pump patient, walked beaming out of Methodist Hospital today to return to her home in Mexico.

The petite, dark-haired Mexico City beautician stepped into a waiting car for a trip to the Houston Air Center, where she was to board a private plane owned by Romulo O'Farrell Sr., a Mexico City industrialist and newspaper publisher.

O'Farrell was a patient at the hospital last month while Mrs. Vasquez was making medical history with the heart pump operation.

Mrs. Vasquez, 37, underwent surgery Aug. 8 to repair two valves in the left ventricle of her heart damaged by rheumatic fever. The revolutionary heart pump was implanted and took over up to 40 per cent of the work of her heart to allow the heart to heal.

The heart pump had been used in at least two other patients here and a similar device had been used elsewhere, in two other operations. But in all four previous cases the patients died without leaving their beds.

Mrs. Vasquez will have a limited schedule for 40 to 60 days. After that she will be allowed to return to her work.

She is to return to the hospital in six months for a checkup.

The surgeons' team was headed by famed heart surgeon Dr. Michael DeBakey, chairman of the Baylor University surgery department.

Crash Victim

One of four victims of a Lake Tahoe area plane crash today was identified as Anthony D. Jaramillo, 21, of El Monte, killed Monday when the craft fell and burned en route to Oxnard.

Ousted Fan Slugs Guard

A 56-year-old security guard at Dodger Stadium was in serious condition and continued unconscious today at California Lutheran Hospital after he allegedly was slugged by one of two baseball fans he had removed from the Giant dugout.

Isaac Bingham, of 7023 Costello Ave., Van Nuys, suffered a possible skull fracture when he was knocked to a cement floor and struck his head yesterday.

Louis A. Manning, 24, a pipe company worker, of 4203 Outler Ave., Baldwin Park, and Thomas Davis, 29, a janitor, of 1932 Lufkin St., West Covina, were arrested and booked at Central Jail for assault with intent to commit murder.

Police said that Bingham

Medics Fight For Life

and other security guards removed Manning and Davis from the baseball dugout during the game after they had jumped from the spectator section and onto the field.

Manning and Davis were

being escorted by Bingham to an elevator to the seating section when the security guard apparently put his hand on one of the men and said, "This way please."

Police reported that Manning said "don't touch me" and knocked the elderly guard to the floor.

Davis was released on \$750 bail today and is to appear at 11 a.m. Sept. 12 in Division 40 to answer charges.

Stocks Off After Rally

NEW YORK, Sept. 6 — A rally attempt failed to hold and the stock market closed on the downside today. Trading was slow. The Dow

which earlier in the day had posted a gain of nearly 3 points, closed down 5.35 points at 782.34. (See Business Report, C-9)

Slayer Caught After Attack In Parliament

AN IRON RULER—Slain premier led a caretaker of white supremacy . . . A-26.

CAPE TOWN, South Africa, Sept. 6 (AP)—A white assassin stabbed Prime Minister Hendrik F. Verwoerd to death today in Parliament. He repeatedly stabbed Verwoerd before stunned members could overpower him.

A recently employed parliamentary messenger, the assassin was thrown to the floor during the struggle. Numerous blows were exchanged before he finally was subdued.

Verwoerd, architect of apartheid, was dead on arrival at a hospital.

His death was expected to bring no change in the government's white supremacy policy, since the Verwoerd party controls Parliament by a wide margin.

NECK ARTERY CUT

Doctors who tried to save Verwoerd said he received four stab wounds, one in a neck artery and three in the upper chest.

Dr. J. C. Burger, superintendent of the hospital to which Verwoerd was taken, said the assassin's knife entered the Prime Minister's heart, and he probably died instantly.

The wild scene in the all-white Parliament, which has passed many laws bearing on the racial question, was enacted before a gallery of spectators gathered for opening of the session.

Many were weeping as Ver-

woerd was borne out on a stretcher.

The assailant was identified as Dimitri Stafendas, a man of Greek extraction who came to Cape Town from Johannesburg and had been employed at Parliament less than a month.

Members of Parliament stood in the lobbies discussing the assassination until summoned back into session by the senior Cabinet member, Finance Minister Theophilus Dones, who became acting prime minister.

IDENTIFIES ASSASSIN

After announcing Verwoerd's death, Dones identified the assassin and said his

\$24,000 AIRPORT ROBBERY

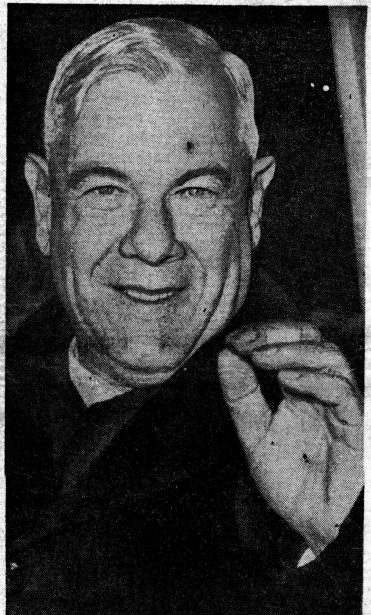

Two bandits garbed as employees early today robbed the Airport Parking Company of America office at 263 Center Way, International Airport, and escaped with \$24,000.

Venice Division detectives said that shortly after 3 a.m. one of the bandits, wearing the blue uniform of the parking lot company, knocked on the office door stating:

"I'm here to pick up the tickets."

As he entered the office he drew a small caliber pistol and ordered employees Harold W. Allen, 37, and Dorothy Wolfert to "stretch out" under a table, where he taped their hands and placed "something" over their heads.

Police said the second man entered carrying suitcases and scooped up the cash from an unlocked safe. Allen and Miss Wolfert were preparing the money for deposit.

Russia Cuts All Ties to China

By K. C. THALER

LONDON, Sept. 6 (UPI)—The Soviet bloc has cut all remaining party ties with Red China and has reduced its diplomatic contacts to a bare minimum, authoritative East European sources disclosed today.

The last slender contacts on party level with Peking have all been severed, while Soviet bloc ambassadors all "happen to be absent" from their posts in the Chinese capital.

There is no indication when or whether the envoys will return to their posts. But, according to the informants, their presence is not considered necessary or even feasible in the light of the fast-deteriorating relations between Peking and the rest of the Red camp.

Even the most slender hopes for an eventual realignment between Moscow

and Peking have been abandoned altogether and for a long time to come, the sources said.

It is now increasingly clear that the rift is likely to remain unbridgeable during the life of Chinese Communist Party Chairman Mao Tse-tung and at least also during that of the regime that will follow him, the sources added.

East European diplomats

More of The Same

(U.S. Weather, Tides A-23)

Weather you like it today or not, you'll get more of the same tomorrow—early morning low clouds, then sunshine, then a high temperature about the same as today's predicted downtown high of 82.

The predicted low for tonight is 65 degrees, one degree cooler than last night's low mark. That's about the biggest change the weatherman would promise.

Crippled Woman Rescues Boy

By HARRY TESSEL
Herald-Examiner Staff Writer

Unable to walk normally because of Parkinson's disease, a Chatsworth grandmother last night recounted how she fought to hobble 50 feet beside a swimming pool to rescue a drowning child.

Mrs. Clara Holly, 52, of 10352 Hillview St., was visiting friends at Lafayette when she saw three-year-old Paul Cohn, fully clothed, fall into the backyard pool.

Mrs. Holly told the Herald-Examiner, in response to questions during a long distance telephone interview:

"I saw him fall in as I came around the corner of the house. I hollared to tell the people inside he was drowning.

"I can walk short distances, but I lose my balance and fall very easily—and then I can't get up without help. And, I can't swim a stroke. But this time I didn't give falling a thought.

"I walked toward him, supporting myself against the wall outside the pool. He was under water in the

MRS. CLARA HOLLY
Saw boy fall in pool

shallow end a couple of feet from the edge.

"He was holding his breath and his eyes were wide open. But I don't think he saw me as I knelt down and lay on my stomach on the concrete apron.

"He rolled to one side

and his arms came up. I grabbed one of his hands and held him so that his head was out of the water. He was choking. I called for help again and people came running out of the house.

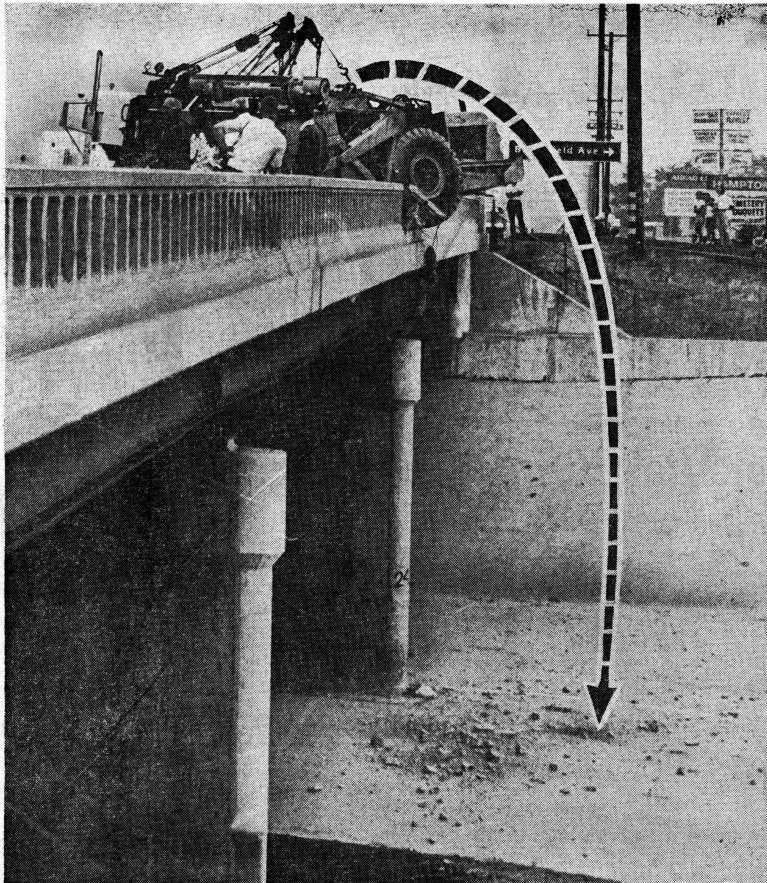

"They got Paul out of the water—he was all right, but crying—and they helped me to my feet."

The boy's father, Stephen Cohn, 30, an electronics technician, of Martinez, told The Herald-Examiner:

"There is no doubt Paul would have drowned if Mrs. Holly hadn't pulled him out. My wife and I are deeply grateful."

The Cohns, Mrs. Holly and her husband, Robert, 58, also an electronics technician, were guests Sunday at the home of Art and Beth Clark in Lafayette, Contra Costa County, when the near-tragedy occurred.

"My wife can't walk very fast," Holly said. "Sometimes she falls two or three times a day. But she's terrific. I don't know how she ever got to the boy in time."

DRIVER OF EARTH SCRAPER CATAPULTED TO RIVER BOTTOM AFTER CRASH
Gary Tallant, 30, survived fall (arrow) after vehicle went out of control on bridge

DRIVER HURT IN SCRAPER WRECK

The driver of a 15-ton construction scraper today was thrown from his vehicle 25 feet down onto a concrete river bottom after crashing into a reinforced concrete railing on a San Gabriel River bridge.

Gary Tallant, about 30, of Hawthorne, an employee of the Streker Co., Santa Fe Springs, was reported in "fair condition" at Lincoln Community Hospital, Buena Park, after his accident on E. Car-

son Street, Hawaiian Gardens. California Highway Patrolmen, investigating the 7:45 a.m. crash, which tore out a 12-foot section of the railing, were unable to establish cause of the crash.

Tallant reportedly had traveled about a half-mile en route to a job site, and had just crossed the Orange County line when his heavy-duty vehicle smashed to the concrete river bed.

By freeing itself of many "rubber-stamp" duties on scores of items daily, the council could restrict itself to "significant" actions, the councilman concluded.

TCU Chief Dies

FORT WORTH, Tex., Sept. 6 (UPI)—Amos Wade Melton, 59, assistant chancellor of Texas Christian University, collapsed and died last night at his home while eating.

Resist Pressures From All Factions, Pike Tells Teachers

Retiring California Episcopal Bishop James A. Pike and Los Angeles County District Attorney Evelle J. Younger today told teachers to resist pressures and warned of a heavy increase in crime.

Bishop Pike told 600 teachers at an orientation meeting in El Rancho High School they do not have to "take a pushing around by paranoids from either the right or the left."

He said the two major problems in education are: (1) large classes and (2) the tendency by communities to try to force teachers to conform.

HELP PUPILS

He said there is no reason for teachers to be pushed around by any group. All

teachers have to do to maintain their freedom, he added, is to resist pressure because of the shortage of teachers.

The greatest service a teacher can perform, he continued, is to help pupils to understand that people should be treated as humans and not things.

Earlier, Younger told the group that if the crime rate remains constant over the next decade, there may be a 55 per cent increase in law violations. He termed the prediction a "frightening prospect."

"The clear and inevitable conclusion reached," said Younger, "is that the war on crime can be won only by reduction in the tendency toward crime by our young people."

He said 75 per cent of the crime in this country is committed by persons between the ages of 14 and 29.

Younger said parents "must begin early to instill discipline and respect for authority. He added that programs tailored to curtail juveniles must be initiated without delay.

Anti-Viets Arrested at Rail Station

Eight men distributing anti-Viet Nam war literature were arrested for alleged loitering at Union Station last night and were later freed on \$110 bail, officers reported today.

Police said the men had been distributing the literature to railroad passengers. Union Station is private property.

Melvin H. Bakken, chief security officer at the station, placed all eight under citizen's arrest and then summoned police, who took them to Central Jail, where they were booked for alleged loitering at a railroad station—a violation of the municipal code.

Police identified those arrested as: Romero Delfin Jose Lugo, 19, a student, of San Rafael; Clyde Carson, 22, UCLA student; Victor Dinsterstein, 20, a clerk, of 356 N. Martel Ave.; Michael Alexander Yuffe, 27, a student, of 4215½ Burns Ave.; Joseph Ralph Gould, 21, a laborer, of 543 Indiana Ave.; Frederick Alfred Hoffman, 32, an interviewer, of 1548 W. Jefferson St.; Michael Allen Slomich, 20, a student, of 2260 Barrington Ave.; and Jeffrey David Schmidt, 20, a student, of 5560 W. 62nd St.
